Usually it is because someone has not set the alarm correctly on leaving. We therefore require a person, preferably persons, to be on a list which the Security Firm can phone. If you could do this, please reply to this email or phone the Secretary, 478 1285.

As declarer, being able to take a trick with one of two equal cards, take the trick with the higher equal. The exception is at notrump when you have an AK stopper. If you plan to take the trick, take it with the king. Taking the first trick with the ace is very suspicious. If that were your only stopper, why didn't you hold up?
